

# REHABILITATION OF ELDERLY AT HOME: A GLOBAL OPPORTUNITY

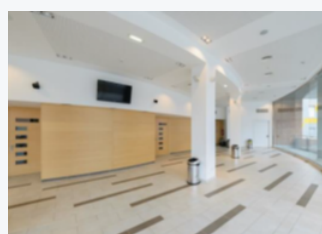

June 5<sup>th</sup>, from 13:00 to 16:30

**Biocruces HRI – Cruces University Hospital**

(City of Barakaldo, 15 min in metro from Bilbao City Center)

“Sala Arriaga”  
presentations

“Cristalera”  
exhibitions  
and coffee

## Objective

The European Project vCARE

investigates how to organize personalized coaching and tutoring services for neurological and cardiac rehabilitation of elderly patients at home. In this frame, the project invites specialists and stakeholders to come

together to find out about some first existing solutions, discuss their potential in view of connected care and home based services.

In case of interest attendees can join the “vCARE community of interest”, thus being able to follow the project’s progress in the next 3,5 years.

This project vCare has received funding from the European Union’s Horizon 2020 research and innovation programme under grant agreement No 769807.

## Program

**13:00 – 13:10** Welcome [Luis Castaño, MD; Scientific Director, Biocruces HRI] [Iñigo Gabilondo, MD; Neurology Department, Cruces University Hospital; Biocruces HRI]

**13:10 – 13:25** Presentation of the EU H2020 vCARE project [Hannes Schlieter, vCARE coordinator, Technische Universität Dresden, Germany]
