Bilbao

## IN A NUTSHELL

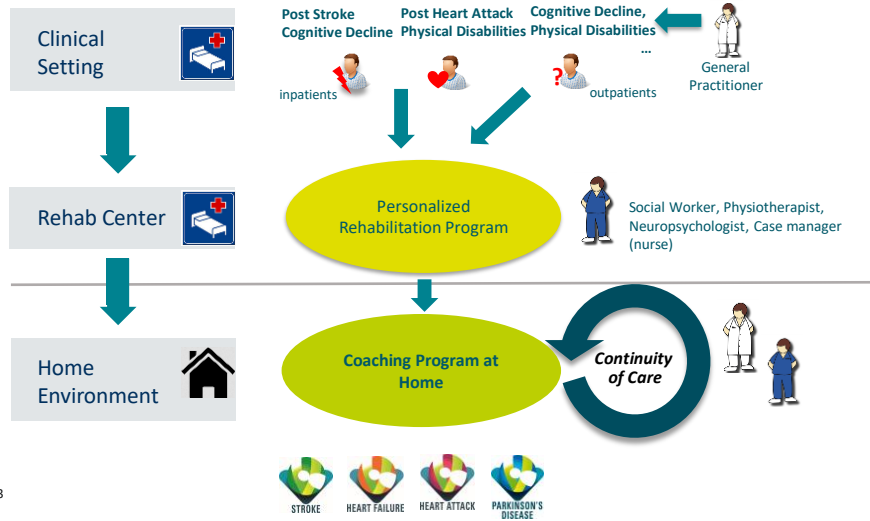

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 769807.

## COMMON SITUATION IN REHABILITATION

# HOW IT SHOULD BE...

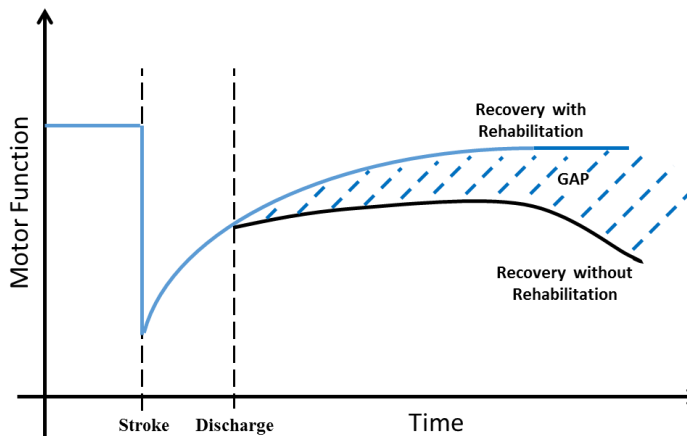

3

- Often the continuity of the rehabilitation process interrupts with the transition to the home environment.

Stroke Recovery Model

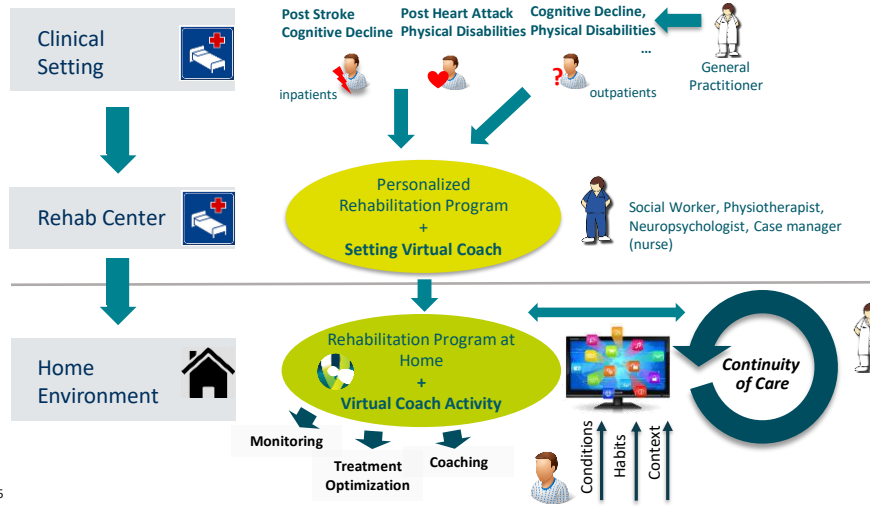

Modified from Langhorne, Bernhardt, and Kwakkel 2011

## IMPORTANT NOTES

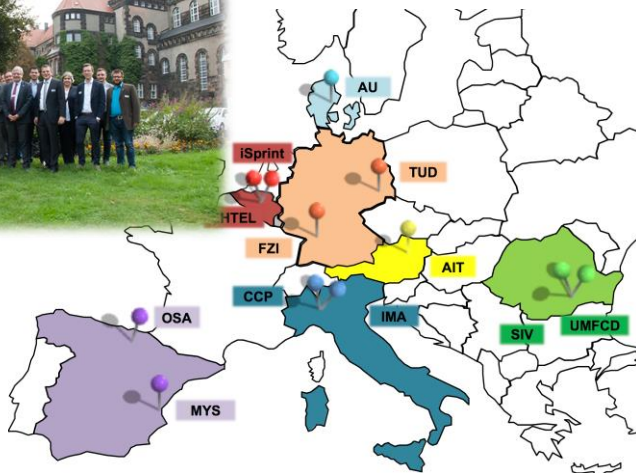

- **No Telemonitoring!**  
→ Risk factor reduction by sustaining self-management
- **Not a substitute for professional treatment**  
→ continuous medical support
- **No Computerized Doctor**  
→ Accompanying support of traditional care
